MILWAUKEE DAILY SENTINEL.

VOLUME VIII.—NEW SERIES. MILWAUKEE, TUESDAY MORNING, MAY 18, 1852. WHOLE NUMBER 2304.

Milwaukee Daily Sentinel.

PUBLISHED EVERY MORNING, (SUNDAYS EXCEPTED,) BY

RUFUS KING & CO.,

AT THE OFFICE,

Nos 205 & 207 EAST WATER STREET,

CORNER OF WISCONSIN STREET,

IN THE SECOND, THIRD, AND FOURTH STORIES OF LUDINGTONS NEW BRICK BLOCK.

TERMS:

THE DAILY SENTINEL will be left at the door of City Subscribers at SIX DOLLARS a year, payable Quarterly or 50 Cents a Month; or, 12½ Cents a Week, INVARIABLY IN ADVANCE.

TRI-WEEKLY SENTINEL—THREE DOLLARS a year, INVARIABLY IN ADVANCE, AND THE PAPER DISCONTINUED WHEN THE PERIOD FOR WHICH IT IS PAID, EXPIRES.

WEEKLY PAPER—TWO DOLLARS a year, INVARIABLY IN ADVANCE, AND THE PAPER DISCONTINUED, WHEN THE PERIOD FOR WHICH IT IS PAID EXPIRES. To CLUBS of TEN or MORE, to ONE ADDRESS, the Weekly will be sent for ONE DOLLAR A COPY.

TO OUR ADVERTISERS.

IN ORDER that there may be no misunderstanding in relation to Advertising, we here state the rates determined upon in our daily papers, from Jan. 1st, 1851:

1 square (ten lines)	$1 00	1	square,	2 weeks,	$2 75
1 "	6 months,	10 00	1	"	1 50
1 "	3 "	6 00	1	"	5 times, 1 00
1 "	2 "	4 00	1	"	4 " 1 25
1 "	1 "	3 00	1	"	3 days, 1 00
1 "	6 weeks,	2 00	1	"	2 " 75
1 "	1 month,	1 00	1	"	1 " 50
1 "	3 weeks,	3 50			

Twelve lines Nonpareil (or less) make a square. Leaded Advertisements, "after reading matter," 50 per cent. advance on the above rates.

One sqr. for a year, with a change once a week, $25; 2 sqrs. $50; 1 sqr. with a change every day, $25; (DAILY PAPER NOT INCLUDED.) No paper will be discontinued (unless at the discretion of the proprietors,) until all arrearages are paid.

Persons wishing to discontinue their yearly or casual advertising, must give notice at the Counting Room. All yearly advertisers discontinuing their advertising before the year is out, will be charged at the above rates.

The privilege of Annual Advertisers is limited to their own immediate business, and all advertisements for the benefit of other persons, or on other business, must be paid for at the usual rates.

Communications, the effect of which is to promote private interests, to be paid for at the rate of 10 Cents per square for a single insertion.

In all cases where advertisements are sent in, marked DAILY and WEEKLY, they will be charged 10 Cents per square for the first insertion, and 25 Cents for each subsequent insertion in the Weekly.

Advertisements not accompanied with written directions, will be inserted one month, and charged accordingly.

JOHN DWIGHT & CO'S

SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—saving cookery a more delicate appearance and flavor; and also as more wholesome—being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

Preaching and Practice.

The Green Bay *Spectator* reads us a lecture for "misrepresenting it in everything," and straightway proceeds to do the same thing by the *Sentinel*. Wherein we have misrepresented the *Spectator* it does not condescend to inform us. Wherein it misrepresents us, we shall briefly show. It says that "the *Sentinel* professes to be a Whig Journal," and yet "has taken up arms" against the great principle of Internal Improvement.—Every reader of the *Sentinel* knows this charge to be absurdly untrue. It complains that we "more than intimated" that it had something to do with burning the Governor in effigy and injuring our subscription. No such idea ever occurred to, or was expressed by us. It insists that we have dealt unfairly by the Fox River Improvement question, when our columns have been freely opened to both advocates and opponents of the Martin contract and bill. And it twits us with unfairly representing that it dared not, or did not publish the Governor's Veto and letter, while in the same breath it makes the following admission that *the charge was true:*—

But does the *Sentinel* expect us, or any other paper of character and influence, to fill our columns with the pourile arguments of such *statesmen* as now control the Executive Department of Wisconsin?

In the same article the *Spectator* gravely apprises us that the Fox River Improvement is "a work eminently constitutional and right and proper as any clear-headed lawyer can tell the *Sentinel*."—We supposed this fact to be pretty well known throughout the State, and by no means confined to "clear-headed lawyers." Lastly, the *Spectator* politely informs us that "every important step taken by that paper (the *Sentinel* meaning) has been in direct conflict with Whig principles and Whig interests." Too bad, isn't it? We suppose that if we had followed the *Spectator's* lead, Whig principles would now flourish like a "Green Bay tree" all over Wisconsin.

N. Y. Canal Law decided Unconstitutional!

The following despatch from the Albany *Evening Journal*, appears in the Buffalo *Express* of the 12th :—

Albany, May 11.

The Court of Appeals has decided the Canal Law UNCONSTITUTIONAL!

The 5 Barnburner Judges delivered the opinion as referred, while the remaining 3 Judges did not concur in it.

The Albany *Register* of the 12th, thus announces the result :

All the members were present, except Judge Gridley, who was detained by illness and Judge Watson.

The Court announced the following decisions, which declare the Canal Law unconstitutional, and then adjourned *sine die*.

Thomas H. Robinson vs. Alfred Munson.

Ordered, that the judgment of the Supreme Court be affirmed with costs.

The People, ex rel. Erastus R. Phelps, Deft. in error, vs. Geo. W. Nevell, Auditor, &c., Plff. on error.

Ordered that the judgment of the Supreme Court be reversed, and that the motion for a mandamus be denied with costs.

The *Register* states that Judge Wyles only dissented. We find that in Rochester, a call was issued for a meeting of those who were in favor of an extra session of the Legislature, to devise means for carrying on the work.

The decision of the Court is by far the most important one ever rendered in the State of New York, and its effects will be felt throughout the whole West, which is so much interested in the early enlargement of the Erie Canal, the great avenue through which its produce passes to market. As at present advised, we do not feel authorized to state our opinion that the decision was more of a political than a judicial one, though the *Journal* intimates that such was the case. Be that as it may, we must that speedy measures may be taken to continue and complete the enlargement.

Lake Shore Rail Road.—The citizens of Racine held a meeting last week, to take measures to aid in locating the Lake Shore Rail Road. A committee of 22 was appointed to take charge of the matter. The Racine County *Democrat* has the following paragraph in regard to the preliminary survey now in progress :

Mr. Alton, the engineer on the Green Bay, Milwaukee, Racine and Chicago Railroad, has reached this place in his preliminary survey. He finds the ground very favorable from here to Milwaukee, and the distance from Racine to Walker's Point Bridge is but a little over twenty two miles. He will spend a few days in examining the different points for locating in this city, and then proceed to Kenosha and the State line.

After Mr. Alton shall have completed his exploration of the route as far as the State Line South, we trust that he may be commissioned to look over the route to Fond du Lac. So far as the interests of Milwaukee are concerned it is quite as important to ensure the speedy construction of a Rail Road to Fond du Lac, as to Chicago. As a pecuniary investment too, the Fond du Lac and Milwaukee Rail Road offers unusual inducements. No better route can be found in the State, and none which would secure such immediate and permanent advantages to Milwaukee.

"Telegrams."—Talking about this new word which it is proposed to substitute for "Telegraphic Reports," the Albany *Evening Journal* says :

Every day it is adopted in some new locality, and we notice this morning that away up in eastern Maine they have received a "Telegram from the West," while in Iowa and Wisconsin, they are getting "Telegrams from the East."

How it is in Iowa, we can't say, but in Wisconsin we don't get anything which will bear the name; or, at all events, not more than once a week. We are worse off here for reports than we were two years ago. We clip hosts of items called "telegrams" from our eastern exchanges, of which the following is a sample :—

Boston, May 12.

The plan of the coalition to appeal the neutrality laws, so far as regards the votes for President, was defeated to-day in the House by 15 majority.

The telegram means "repeal the plurality law," but no one would think so.

Similarity of Tastes.—The Minnesota *Pioneer* complaining of the want of a Capitol, says:—

"There was a large quantity of pine lumber, purchased, and piled up to season, for the Capitol; where is it ?"

Perhaps your people are like the inhabitants of Fort Atkinson in this State—or rather like what their representative in Assembly last winter said they were.

They wanted their village chartered, and as a reason for it, the Dr. said that they wanted to fence and improve their common. Said he, with emphasis :—"Two or three times the lumber has been hauled to the ground, and piled up, but the people *will eventually* turn in and steal it."

The argument was conclusive—the bill passed—or didn't pass, we don't recollect which; but it isn't material.

Trial of Bishop Doane.—The Newark Daily Advertiser states that a notification is said to have been addressed by the Senior Bishop of the Protestant Episcopal Church to the other Bishops, to meet in convention at Camden, on June 28th, for the trial of the charges against Bishop Doane. —This notification was received while the Council of Bishops was in session at St. John's Chapel New York, on Wednesday last, appointing delegates to the Jubilee celebration in London, on the 15th June, and it is thought that the Bishops Delancy and McCrosky will not go as delegates according to appointment, on account of the convention, but that Bishop Hopkins, of Vermont, may go—a rumor having been circulated that he will refuse to sit on Bishop Doane's trial.

Sleighing in May.—The stages between Troy and Bellows Falls Vt., on the 14th, went 16 miles *on runners*, and there was a prospect of doing so for a fortnight longer !

Wisconsin Colleges.—The Buffalo *Express* of the 12th instant, under the head of "Wisconsin looking up," says that the "corner-stone of the *first* College in Wisconsin, was laid at Racine on the 8th instant." Whereupon a correspondent in the next day's issue thus "posts up" our Buffalo contemporary as to educational matters in this State :—

For the Express.

Permit me to correct an error found in the *Express* of yesterday morning, relative to the laying of the corner stone of the Free College in Wisconsin.

In the beautiful village of Beloit is a College established by the Presbyterians and Congregationalists. It is located on one of the most attractive elevations in the Union. This institution is in a flourishing state, under the charge of President Chapin. We understand the foundation of another College was laid at Waukesha, about 20 miles west of Milwaukee. The Episcopalians have a College on the beautiful and romantic location of the "Twin Lakes."

In addition to the law for establishing and supporting Common Schools, Academic and Normal Schools, the Constitution says—"Provision shall be made by law for the establishment of a State University at or near the seat of Government, and for uniting with the same from time to time such Colleges in different parts of the State as the interest of education may require.

A part of the magnificent house for this University is erected at Madison, and the school is opened under the charge of a Chancellor.

The framers of the Constitution of this new State have ennobled themselves by the ample provision made for the diffusion of knowledge through various institutions of learning. To the nurseries of Science, "Common Schools," one thirty-sixth part of the State is appropriated to their support. A.

So far the *Express* correspondent. The building for Carroll College, Waukesha, is up and in use, tho' the Preparatory Department only has yet been organized. At Appleton, too, in Northern Wisconsin, the Lawrence University, a well-endowed and well-managed Institution, is in very successful operation and has already gathered within its walls a large number of pupils. No young State in the Union offers the same educational advantages that Wisconsin does, and in a very few years, with honest and judicious management of our School and University Funds, we shall be able to compare notes with any State, old or young

American Clippers.—The Hanoverian Government has recently called together a Commission of shipbuilders and Commercial men to consider the facts connected with the voyages made by vessels under the late navigation laws. Among other paragraphs in the report of the Commission, we find the following :

The old imperfect forms are gradually being dropped, and the mighty competition of the North American clippers, which are endeavoring to monopolize the freights of the world, and to drive England out of the field even in her own colonies, has aroused the whole dormant energy of the English character. A competition in navigation has ensued, such as the world never before witnessed, and all nations that take any interest in the matter must exert themselves to the utmost to bear themselves bravely in so mighty a struggle, where every means are brought into play on all sides.

☞ It will be seen by the following article from the New Orleans *Picayune* of the 2d instant, that two of the distinguished musical trio who visited our City last fall and delighted us with their melody, have entered in a partnership for life:—

A Marriage.—Yesterday morning at the residence of Latour, Esq., attorney at law, in the Pontalba Buildings, were married Maurice Strakosch, and Amelia Patti, artists. Judge Derbes, fourth Justice of the Peace, officiated. The witnesses to the ceremony were Jos. D. Bately, Esq., Consul, at this port, for the two Sicilies, Z. Latour and Michael Parodi, the brother of M'lle Teresa Parodi, the eminent artist.

The happy pair, M'lle Parodi, Miska Hauser, Signor Arnoldi and Mons. Parodi, left for Mobile yesterday afternoon, on the Mail steamer Oregon, on their way to New York. We wish our friend Strakosch and his pretty and amiable bride all happiness and prosperity; but we cannot refrain from expressing the opinion that he should not have gone off so suddenly, without allowing any one to compliment him on his new honors.

Jenny Lind's Last Concert.—The Swedish Nightingale gives the first of her closing series of Concerts, in the City of New York this evening and the last in America, on Monday. No doubt they will be as crowded as were her first ones; for Jenny, though now Madame Goldschmidt, has not lost a jot of that public favor she has so fairly earned. Her parting gift to the people of Northampton, among whom she has found a quiet and happy home for some months past, was a private Concert, the proceeds of which, *some* $1,500, was distributed among the Benevolent Institutions of the town. The room was crowded to suffocation and the peerless Vocalist thrilled and delighted her audience.

New York for Scott.—The following counties, belonging to different Congressional districts of New York, have all chosen Scott delegates to their district Conventions, viz:—Otsego, Schoharie, Chautauque, Broome, Yates, Montgomery, Cortland and Schenectady.

These are in addition to the other districts, from which we have already heard.

Uncle Tom's Cabin.—Harriet Beecher Stowe, the authoress of this popular little book, is the wife of Prof. Stowe of Bowdoin College, and the sister of Rev. Henry Ward Beecher. She has received $4000 on account of sales already made, it being 10 cents upon each volume sold. She has been offered $10,000 for the copy-right of the work. Over 15000 copies of the book have already been sold.

New York in the National Convention.—The City of Brooklyn sends a Scott Delegate to the Whig National Convention. The 25th District, Seneca, Wayne, &c., sends A. B. Williams, also a Scott man. Monroe County sends Freeman Clarke, another Scott man. This makes *eleven*, out of 12 Districts heard from, which elect Scott Delegates.

☞ Among the passengers by the ship *Hornbold*, which arrived at New York from Bremen on the 10th instant, we notice the names of J. G. Bernstede, and J. Meiness, of Milwaukee; Countess Dembinski, of Hungary, and 231 others, mostly German emigrants.

Another Launch.—The Manitowoc *Herald* of last week mentions the launch at that port of the "fine, new, Norwegian-built Schooner *Toledo*."—She is a stout vessel; can carry 60,000 ft of Lumber, and has been bought by some gentlemen in this city.

Flock of Sheep.—One hundred and sixty sheep, which Mr. Jewett of Madison county, Vt., has just imported from Spain, have arrived, in charge of a Spanish shepherd. Mr. Jewett paid $14,000 for the flock. There was one buck which cost $900, and would shear 24 pounds of wool.

Circuit Court.—The Court was again occupied yesterday, with the case of Perry vs. Comstock, traverse of attachment. It will probably be concluded to-day. Arnold & Emmons for pl'ff; F. Randall, J. S. Brown for deft.

Governor Calhoun of Mexico.—The Occidental Messenger, of May 1st, learns by a private letter from Santa Fe, since the April mail, that Governor Calhoun was not expected to live over a few days. He had been in ill-health for some time.

U. S. Senator from S. Carolina.—A Charleston despatch of May 10th, announces that W. F. Dessaussure (pronounced *dissoso*) has been appointed Senator from South Carolina, instead of Mr. Richardson, as was stated.

Fire on the Prairies.—The St. Louis Evening News, an able Whig paper, has come out in favor of the nomination of General Scott to the Presidency, and of Edward Bates to the Vice-Presidency.

American Express Co.—An agent of this company has been appointed at Sheboygan, and business matters entrusted to the Company will receive quick despatch.

☞ While in this city a few days ago, Gen. Sam Houston expressed the belief that Gen. Scott would be our next President.—*Louisville Courier.*

Sensible man, that Sam Houston.

City Matters.

First Vessel Back—Quick Trip.—The good Schooner *Sam Hale*, Captain Shorts, belonging to Williams & Co. of this city, was, as we before noticed, the first sail vessel into Buffalo from this lake, leading a large fleet in. She left Buffalo on the morning of the 12th about daylight, and arrived at the mouth of the river yesterday morning at about 8 o'clock, making the trip in about *five days*—the quickest ever made. She brings 500 bbls. Salt, besides merchandize.

Captain Shorts was obliged to work all day yesterday to bring his vessel up to the docks, the wind being unfavorable. The water has already worked a channel of about 1 foot deep across where the "straight cut" ought to be. If Congress don't hurry up that appropriation for the harbor, we shall have an entrance shortly without their help.

Mr. Lord's Lectures.—Mr. Lord delivered the first of his three Lectures at Gardiner's Hall last evening to a large and gratified audience. The second of the series will be given at the same place *to-night*—subject, "the Huguenots and the political consequences of the Reformation." We again urge our readers, one and all, to avail themselves of the opportunity thus offered of hearing one of the most interesting and accomplished Lecturers in the country. He gives his last Lecture to-morrow evening.

Immigration.—The steamer *Hudson*, from Buffalo, landed about 300 immigrants on Sunday morning, and the *Arctic* from New Buffalo, about the same number in the evening. They look intelligent, hardy, and the majority of them comfortably off. The last Sheboygan *Mercury* states that over 1600 have landed at that port this season, and our other lake towns are getting their share.

Numerous as are the arrivals, the tide is not yet at its full flow.

Indictments by the Grand Jury. — The Grand Jury, now in session, has found the following indictments, and the individuals are under arrest :

Geo. Cady, for passing counterfeit money.—Geo. Estabrook, for larceny. Abijah Little, one indictment for forgery, and four for larceny.—Reuben Jones, for horse stealing. Jacob Klein, a boy 14 years of age, for setting fire to a house and barn in Granville, Washington Co.

For Buffalo !—The steamer *Henrick Hudson*, Capt. Goldsmith, which came up from Buffalo on Sunday, with a full load of passengers and freight, leaves here again, on her down trip, *this* (Tuesday) evening at 7 o'clock from Middle Pier. Kellogg, Strong & Co. The *Hudson* is in prime order, makes good time, and carries passengers at cheap rates.

Cross-walk Needed.—A plank crossing is very much wanted on Mason Street at the Episcopal Church corner. Of a rainy day, such as was Sunday, the mud in the street is quite a serious obstacle to ladies going to Church. We are quite sure that the First Ward Aldermen are altogether too gallant to leave this want unsupplied.

The Sidewalk Ordinance.—East Water Street is vastly improved by the removal of the awning posts, sheds, and other wooden excrescences that disfigured it. With the new style of awnings, dependent from the buildings, it would look exceedingly neat and airy.

Flowers.—We are indebted to our fellow-citizen, R. N. Messenger, Esq., for a very pretty bouquet of choice flowers, all of his own culture. Mr. Messenger has no less than sixty varieties of Roses in his garden, all doing well.

Land Warrants.

The annexed circular of instructions from the General Land Office, will be valuable for those interested :

General Land Office, }
April 29, 1852. }

Sir—If the Warrantee died *after* the Warrant was issued, the heirs, if *adults*, jointly must assign ; if *minors*, their guardian, having previously obtained an order from the court having proper jurisdiction, can alone assign their interest therein ; if there are both adult and minor heirs, the former and the guardian of the latter must unite in making the assignment.

An executor cannot assign a warrant under said act, unless specific directions are given by the testator to him to dispose of the same.

If the warrantee died *before* the warrant was issued, it is null and void, and must be returned to the Commissioner of Pensions, who will cancel the same and issue another in the name of the widow, (if he left one;) if he left no widow, but *minor* children, the warrant will be issued in their names; if he left neither widow nor minor children, there exists no right in any other person thereto.

Very respectfully, your ob't serv't,
J. BUTTERFIELD, Com'r.

To J. Thompson, Esq., Land Warrant Dealer, No. 2 Wall street, N. Y.

Remarks.—If the warrantee died after the issuing of the warrant, proof of the fact must accompany the warrant, and proof of heirship must also accompany the warrant. This proof must consist of the certificate of a Probate Court under seal, stating the time of the death of the warrantee, and giving the name of the widow, or, if no widow, of each and every child, designating which are minors and which are of age.

The widow is entitled to the warrant. If there is no widow, then the children are entitled to it. If there are neither widow nor children, the warrant is null and void.

Public Acts

Passed during the First Session of the Thirty-second Congress.

[Public—No. 11.]

AN ACT to extend the time for selecting lands granted to the State of Wisconsin for saline purposes.

Be it enacted by the Senate and House of Representatives of the United States of American Congress assembled, That the time for selecting lands for saline purposes, granted to the State of Wisconsin by virtue of the fourth sub division of the seventh section of an act entitled "An act to enable the people of Wisconsin Territory to form a constitution and State government, and for the admission of such State into the Union," approved the sixth day of August, in the year eighteen hundred and forty-six, be, and the same is hereby extended to the first day of January, in the year eighteen hundred and fifty-four ; and the land so selected previous to the day last mentioned shall be granted to said State for the same purposes, on the same conditions, and with like effect as if the same had been selected and confirmed within the time limited by the act above mentioned.

Canal at the Sault.

Mr. Seward, in presenting the resolution of the New York Legislature in favor of a canal round St. Mary's Falls, remarked:—

"In submitting these resolutions, I deem it proper to the spirit of patriotism inspired in them—to say that I shall conform myself to the wishes of the Legislature and that I shall co-operate with the representatives of Michigan, and all others who may take an interest in the matter, with alacrity and preseverance in securing the earliest possible action on so great and truly a national work as the canal around the Falls of St. Marys."

Why do not the representatives of New York and the West co-operate in behalf of national improvement in the West ? Union and co-operation would secure them. Have Western members no time to devote to this subject?—*Cleveland Free Democrat.*

Old Books in the United States.—The Americans are becoming a race of book-buyers. Every purchaser of old books—the literature of the period between Gower and Milton—has found by experience how much the demand which has sprung up within three dozen years across the Atlantic for such works has tended to enhance their value in this country. Every few days, too, we hear of some famous library, museum, or historical collection having swept off to the "New World."—This week supplies two notable examples :—the Prince of Canino's valuable museum of natural history, his library and his gallery of Art, have been purchased by a private American gentleman —and the library of Nesnder has been bought by the Senate of Rochester University, in the State of New York. Neander's books constitute one of the best collections on theology in Germany.—*London Athaeneum.*

☞ The Rochester American says that several new lines of *omnibi* have appeared in the streets of that city. Does the Editor of the American often travel *per omnibum ?*—N. Y. *Times.*

Or does he ever go off on an *omni-bust ?*—*Buffalo Express.*

Advantages of Mules over Horses.

Ed. Cultivator:—

Having of late received several inquiries respecting the advantage of mule labor over that of the horse, and thinking some communication on this subject might be interesting to your readers, I take the liberty of addressing to you my own experience.

For nearly three years, I have made use of two pairs of mules, and most of the time of one span of horses. The present season, I have two heavy spans of horses, the one weighing about 2200 lbs., the other 2350—while the pairs of mules weigh only 1700 and 1900 lbs., respectively. The heaviest pair of mules can outdraw either of the spans of horses, and are now in as good condition as in the fall, while the horses have fallen away very much. In the winter, when taxed to their utmost capacity, the mules are fed 12 quarts of oats each, per day, and the horses 20 quarts ; the amount of hay consumed by each being in nearly the same proportion. When not in constant use, the mules are fed little or no grain, and in the summer may be allowed to go unshod without injury. They suffer less than horses from the heat ; are not so easily teased by the flies, and are equally hardy to the cold. They are far less subject to disease, and will endure constant labor for a much longer time. As they walk so as to bring their feet almost in an exact line, they are superior for plowing and working between the rows of growing crops, being less liable to tread them down.—When hitched to a load, their walk is more rapid than the horse, and I consider them preferable in almost every particular, except for quick or pleasure driving. The mule is not a gormandizer, and if fed sufficiently at night, and it is not convenient to feed again till the next, he experiences no inconvenience.

The first cost of a good pair of mules, is more than a span of working horses ; but the mule capital will last for thirty years, while the entire horse capital must be renewed, at least every ten years. My estimate for the relative expense of keeping a horse and mule team, in working order, is as follows :

Span of horses, one year,	
20 quarts oats each, per day—451 bushels at 37½ cents,	$171 00
Five tons of hay, at $8 per ton,	40 00
Shoeing once a month, half new,	18 00
Farrier's bill, on an average,	5 00
Depreciation each year 10 per cent on $200,	20 00
	$254 00
Pair of mules, one year.	
12 quarts oats, each per day—273 bushels,	$102 00
3 tons hay,	24 00
Shoeing once in six weeks, half new	12 00
Depreciation 3 per cent on $300.	10 00
	$148 50

Making a balance in favor of mules of $105 50

A mule is no more likely to be vicious than the horse. Their vision and hearing seem to be better, and they never take fright—a danger from which you are never secure with the horse.

The breeding of mules is an extensive business in some of the western states. They are mostly bought by New Haven shippers, and shipped at the age of three years. The market price of unbroken mules at New Haven, Ct., in large lots, is about $80 each. This is the best place to purchase, as they can then be selected from drovers, and well matched. At three years old, they will do as much work as a common span of horses, and continue to improve for ten years. It appears to me that farmers might save much by substituting mules for horses.

I suppose that in the United States there are three millions of working horses, whose place might be equally well supplied by mules. In my estimate, I made the balance in favor of the mule over $50 yearly : but allowing it to be only $20, the annual saving of expense would be 60 million dollars.—*Cor. Albany Cul.*

The Southern Michigan.

This magnificent steamer is just receiving the finishing touches from the hands of the painters and upholsterers, her engine is almost in running order, and by Saturday night it is intended to have her ready to make a trial trip. On Tuesday she takes her place in the line between this port and Monroe, when from what we can see in progress in the way of decoration and arrangement, she will be found quite ahead of any craft on the Western waters.

The *Northern Indiana* and the *Southern Michigan* are both precisely alike as to size, model, and everything, except a slight difference in the arches with which they are framed. The N. I. will follow the S. M. in the line in about ten days. They are both built by Bidwell & Banta for Capt. Edwards of Trenton, Mich., and are chartered for the season by the Michigan Southern Rail Road.

The boats are each 310 feet in length, being five feet shorter than the Empire State, 37½ feet beam, 64 feet over the guards and 13½ feet deep in the hold. Their model is designed for speed, being similar to any others on the lake. The wheels are 36 feet, with 10 feet buckets. They have each three cabins for first class passengers.—The Upper or main cabins are 218 feet long, with the machinery in the centre, as is usual, with state rooms opening from them on each side. The ladies' cabins are on the main deck aft, each 72 feet in length, with three tiers of berths on each side, shut off from the saloon by handsome curtains, which hang between rows of pillars some two feet from the front of the berths.

The Dining Saloons are below the decks, and measure about ninety feet in length by twenty-five across. They will seat about three hundred guests at table at once. The sides are fitted up with handsomely curtained berths. Adjoining this room are the pantry, closets, &c., for the convenience of feeding the passengers. The kitchens are on the upper deck.

The State Rooms are large and commodious and well ventilated, and about twenty-five of them have, instead of berths, a handsome bedstead, richly canopied. The arrangements will provide for the sleeping of about three hundred and fifty passengers on each boat.

The painting is done in the richest style by Mr. James Smith, and the cabins are about as fine specimens of tasteful workmanship in that line as we have seen for some time. The cabins are to be richly carpeted with velvet tapestry from the extensive store of Merrill & McEwen, and the furniture, which costs about $10,000 for each boat, is from the manufactory of Hersee & Timmerman. It is all of rosewood, much of it richly carved, and covered with the handsomest cloth used for that purpose.

The engines are from the Morgan Works, New York, seventy-two and one-half inch cylinder with twelve feet stroke, with walking-beam, and are intended to make twenty five revolutions per minute. All the machinery is massive and apparently strong as iron can be. The boilers, which are much larger than those of any boats before running on the lakes, are from the shop of S. Shepard. They are furnished with blowers for burning land coal.

The Southern Michigan is to be under the command of Capt. A. D. Perkins, and her consort is to be commanded by Capt. Robt. Wagstaff, both highly popular men on the lakes—and with the Empire State, Capt. Van Allen, will form a line which is destined to be favorite one for the travel between Chicago and this city.—*Buffalo Com. Adv.* 12th May.

"Why I prefer Scott."

A few days since we inquired of an old and consistent Whig as to his first choice for the Presidency.

"Winfield Scott !" was the prompt and emphatic reply.

"And who second ?"

"None :" was the brief but meaning rejoinder.

"You appear to be quite decided."

"Only after mature deliberation."

We asked him for the benefit of his political confections, when he stated the following sound and weighty reasons for his decision :—

"Winfield Scott is a true whig—not in the narrow, partizan sense of the word, but in its most liberal and patriotic acceptation. His "Nationality," like a pyramid, lays its basis on the Atlantic and the Pacific, the Gulf and the Lakes.

"He is not wedded, soul and body, to the slave holding interest, to the utter neglect and abuse of the rights of all other portions of the country.

"He is not shackled by pledges, and will never become the tool of cliques, or designing and selfish men.

"He has been "tried," and like pure gold, has withstood every test and scrutiny. His glowing and figurative language to the American Legions when they stood for the first time on the Plaza of the city of Mexico, will apply with full force to himself :—"You have been baptized in fire and come out steel."

"If nominated, he can be elected ; and the aspect of affairs both at home and abroad, point to him as one qualified in every respect to fill the station with credit to himself and honor to his country.

"He has claims on the gratitude of the American people, for services in camp and council, such as no other living man possesses, and in no other way could Americans more honor themselves than in honoring those claims."—*Lockport Journal.*

Fearful O'Conner.—This eccentric gentleman whose arrival in the Europa we have announced, has been reported in the English newspapers to be insane. The *N. Y. Evening Post* says it should think, from some of his earliest proceedings in this country, that the report is not far out of the way. He strolled into Stewart's store on Monday, and chuckling a handsome young woman, among the purchasers, under the chin, asked how she would like a mustache ? He was ejected from the premises, and afterwards returned, but did not renew any of his wild tricks. It is said that he left England without the knowledge of his friends, and that they will come after him by the next steamer.

Washington, May 13.

Senate.—Mr. Wade offered a resolution calling for information relative to the accounts of Hon. Mr. Todd, late American minister to Brazil.—Adopted.

The bill allowing the State of Missouri to take lands sold by the U. S., was ordered to be engrossed.

Homestead bill was received from the House, and after being read twice was referred.

Mr. Shields introduced a bill granting lands for a Railroad from Cincinnati to St. Louis.

The bill enacting a survey for a canal basin, to be constructed at the terminus of the canal at Georgetown, was taken up and debated.

The House, pursuant to the motion agreed to yesterday, met at 8 this A. M. Twenty-five members were present after the reading of the Journal. Adjourned till Monday for the purpose of having the hall cleaned and refitted for the summer season.

Fire and Loss of Life.

New York, May 13.

French's Hotel, corner of Chatham and Franklin streets, is now in flames. Fire broke out at about 12 o'clock, in rear of the wing, commencing in the drying room at the top, and spreading with great rapidity to the attics, where the firemen found it difficult to reach. A considerable portion of the roof fell in with a fearful crash, carrying the fire down to the 5th and 4th stories, where it was finally subdued.

The entire western wing is much damaged by water, and from the 4th story upwards, by fire.—The remainder of the building has not suffered much. Loss roughly estimated at $50,000. One of the females employed in the drying room, was found burnt to a crisp, and two others are missing. Several firemen narrowly escaped from the falling timbers.

The building, No. 81 Pine street, occupied in part as a drug store, was damaged by fire this morning to the extent of $10,000.

Providence, May 13.

The city election has resulted in the choice of a Whig Mayor, Aldermen and Common Council.—The Whigs elected ward officers in all the wards except the 6th.

Accounts from Port au Prince state that the Emperor Soloque, a day or two previous to his coronation, distributed crosses of honor of the order of Faustin. The English and French consuls received them, but the American did not.

Washington, May 12.

Major Donelson has sold his interest in the Washington Union, to General Armstrong, in consequence of Donaldson's opinions being an obstacle to the Democratic party.

The Intelligencer announces that the Corporations of Alexandria, Georgetown, and Washington, have with the books raised $50,000 for the repair of the Chesapeake Canal, and that the work is now progressing.

Senate.—Mr. Hunter presented a memorial from numerous clerks in various executive departments, praying for a re-organization of the clerk system. Mr. Shields reported a bill to abolish the subsistence and adjutant-general departments of the army. Mr. Shields explained the provisions of the bill, which were calculated to prevent abuses. Mr. Rusk notified the Senate of his intention to introduce a bill regulating the newspaper postage and salary of Post Masters.

House.—The Speaker announced the first business in order, to be the resolution reported on Friday, authorizing the committee on printing to make all necessary arrangements for the public printing, &c. Mr. Fitch spoke at some length, denying any coalition of the extremists to defeat the action of the Convention.

Fire!

Boston May 11.

A despatch received from Northfield, Vt, states that the Depot of the Vermont Central Railroad, at that place, took fire last evening, consuming the main portion of the building. The safes appear in good order, and the valued books and papers are uninjured. Gov. Paine's safe was got out. The Depot was fully covered by insurance.

Dedham, Mass, May 11.

The Whig Convention of the 7th Congressional District, met at this place this afternoon, and elected Webster delegate to the Baltimore Convention. This is Horace Mann's district. The Convention was Webster, all over.

Boston, May 10.

The Conference met at the usual hour, Bishop Morris presiding. Bishop Waugh presented a communication from Bishop Hamlin. It is stated that the Bishop had been ill for a number of years and that for the last 3 years he has been unable to attend to his duties, and he felt it his duty to offer his resignation.

The Committee on Missions recommended the establishment of an independent African Church in Liberia.

Resolutions were adopted that the Methodist Church ought to increase the extent of Foreign and India Missions, and recommended a day of fasting and prayer to supplicate divine assistance for the Missionary work.

A report was made favorable to the erection of a commodious central church in Washington.

A committee was ordered to inquire into the best means for procuring for Protestants in Rome the same religious privileges accorded to Romanists.—The Conference then adjourned.

New York, May 12—2 P. M.

The friends of Mr. Webster, of the Central Committee, held a meeting last evening which was very well attended. The Scott Committee arranged last night for a great Scott meeting to come off in a few weeks.

The Whigs of Brooklyn embracing the 2d Congressional District, held a Scott meeting and sent a Scott Delegate to the Baltimore Convention.

Boston, May 10.

At the meeting of the Whig nominating committee this evening, Hon. Rufus Choate was unanimously nominated to represent this district in the Whig National Convention.

Washington, May 10.

Gen. Scott has written a letter to T. P. Atkinson, of Vt, in which he says he is opposed to all interference between master and slave, or with any of the rights of the South in slave property. He deprecates slavery, and looks forward to the time when emancipation will extinguish the trade in the U. S., and suggests time and patience for the fulfillment of the same.

New Haven, May 11.

The Legislature, to-day, elected Hon. Isaac Toucey, democrat, U. S. Senator, for the ensuing year. The vote in the Senate stood Toucey 14, Baldwin 6, and Gillett 1. In the House Toucey 124, Baldwin 86.

Baltimore, May 11.

The Washington correspondent of the Sun says that President Fillmore is about coming out with a letter, declaring himself to be a candidate for re-election, unless the Baltimore Convention will adopt strong resolutions in favor of the finality of the Compromise.

Commendable.—The New York Sun says that for the past three years, the Messrs. Hoe & Co., the eminent Printing Press manufacturers, have maintained, at their own expense, an evening school for the instruction of their apprentices and employees, in Mathematics, the Exact Sciences, Mechanical Drawing, the French and English Languages, &c. Every one of their many apprentices is required to give punctual attendance at the school, which is also open to admit such adult members of the establishment as choose to attend. A course of Lectures on Experimental Philosophy is in course of delivery before this interesting class of students, by Prof. Hyatt. The increased intelligence of the young workmen doubtless compensates the proprietors for the expense of their instruction.—*Buffalo Commercial.*

Fire.—Serious Loss.—The house and barn of John Wells, near Luning's Mill, on the road between Grafton and Cedarburg, were destroyed by fire last Saturday night. Mr. Wells and family had left the premises Saturday morning, and on their return found their home in ashes. The buildings are supposed to have both been set on fire, as there was no fire left in or near them, and from the intervening distance one could not have caught from the other, the way the wind blew at the time. Both buildings were as fine as can be found upon any farm in this county—and both have been destroyed with all their contents.—*Port Washington Bilde.*

Case of Coffins.—Some wicked wag in a Virginia paper, we see, published an advertisement of Raymond's Metallic Burial case, with a certificate from Gen. Cass attached, conveying his "impression that it is the best article known for transporting the dead to their final resting place." We presume the General is a competent Judge of the article in question, as it is probably the same coffin in which according to John Van Buren this remains were taken home by the way of the Lakes, after the adjournment of Congress in 1848.—*Detroit Tribune.*

A Puzzled Irishman.—Mr. O'Flaherty undertook to tell how many were at the party. "*The two Cregans was one*, meself was two, Finn was three, and—and—who the nick was four! Let me see (counting his fingers)—*The two Cregans was one*, Mike Finn was two, meself was three—and—and—bedad! there was four of us: but Saint Pathrick couldn't tell the name of the other Now it's meself that has it; Mike Finn was one, *the two Cregans was two*, meself was three—and—and—by my sowl, I think there was but three of us after all."

☞ The *Lantern* says "a correspondent assures us that Maine may be considered a defunct part of the republic, "as the *spirit* has *departed to another state !!*"

Here is a really good conundrum from the Lantern :

"Why is the first chicken of a brood like the foremast of a ship ?

Because it's a little for'ard of the main hatch !"

The Markets.

Office of the Daily Sentinel, }
Milwaukee, May 18, 1852. }

The weather during the last week has been generally favorable, and business good, though receipts of produce are still limited, and transactions in that line few. Some 900 tons of merchandize have landed at this port, and a large business has been done by the merchants. Emigrants continue to pour in by the boats, nearly 3000 having landed during the week past.

Shipments during the week have been as follows:

Flour, bbls.	6560	Beef, 610 bbls.	
Barley, bus.	17000	Wool 18 bales.	
Oats, "	19,465	Lead, 80 pigs.	
Pork, bbls.	1800	Ashes, 25 tons.	
Hams and shoulders,	40,000 lbs.		

Flour.—The stock diminishes by constant shipments, and but little comes in to take its place—the mills not yet at work. We quote 3,25@3,50 for inferior to country—3,75@4,25 for No. 1 to extra country and city.

Wheat—little coming in—no change in prices : we note a sale of 600 bus choice white winter from store at 75c.

Corn—none coming in worth noting—we quote nominally at 37½c.

Oats—receipts light—none taken for shipment—sales for consumption at 19@21c.

Barley—quotation nominal 35@38c.

Pork—sales at $10.00—holders firm.

Hams 9c, Shoulders 7c, Lard 9@9½c.

Potatoes 75@81c from waggons—not plenty.

Eggs in demand—supply ample—large quantities bought for shipment East at 6@6½c.

Butter—quick at 11@12½c.

Sugars—crushed 8½@8¾c, powdered 8¼@8¾, loaf 8¾@9c, clarified 6¼@8¾, Muscovado 5¾@6, New Orleans 4¾@5¾c.

Molasses—West India 30@32, New Orleans 40@41, Sugar House 50c.

Coffee—Rio 10½c, Laguayra 10½, Java 13½.

Ashes—pots $4,50, pearls $5,75, as by last New York quotations, transportation out.

Salt—market opens at $1,50. The *Sam Hale* brought the first supply; two other vessels, with 1700 bbls on board, are expected in shortly.

Oils—White 95@100, sperm, pure, $1,75, linseed 80c, lard oil 85c.

White Lead (in oil)—Buffalo 6¼@7c, St. Louis 6@7, 1-5, dry ½c less.

Iron—American $3,25, English $3, Swedes $4,75.

Nails—$3,37½@3,50.

Lead—$5@5,25 per cwt. Shot $1,37½ per bag.

Hides—3½ for green, 8c for dry—15 for dry calf.

Leather—Sole, hemlock and Spanish, 14@16c, do slaughter 15@17c; upper $21@28 per doz.

Coal—but one cargo arrived from Cleveland—sales at $6.

Lime—water $1.75@2, quick 44@50.

AT

J. N. BONESTEEL'S NEW CHEAP CASH STORE!

THE attention of the public has already been called to that BEAUTIFUL STORE, corner of East Water and Michigan-sts, known as the PHOENIX BUILDING, which magnificent apartment is now occupied by the undersigned, in order to keep pace with the times, and supply the many wants of his numerous customers, and is daily being filled with an immense stock of

Entirely New & Fashionable Cheap Goods,

Which, from his long experience in the trade, enables him to select with direct reference to the wants of his various customers. Having facilities at least equal to his competitors for purchasing Goods, he doubts not but that the QUALITY, STYLE and PRICE, coupled with unremitting exertions on his part, will enable him to SELL and gratify the wishes of ashering, as formerly, to the

One Price Cash System,

Relying rather upon LARGE SALES and SMALL PROFITS, than the old and present system of too many, whose motto is the reverse. Those who are in want of

CHEAP FALL & WINTER GOODS,

Are invited to look in at our NEW STORE, where it will be a pleasure for us to show them a beautiful assortment of New Goods, which cannot be excelled for

CHEAPNESS, STYLE AND VARIETY.

HAWKINS' STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked In fact, any stave that can be worked by hand will be dressed in this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and to *any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops The dressing of the sides and jointing of the edge of the staves upon jointed planes The machine is made of iron, is strong, and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary

The Subscribers having purchased of Wm Hawkins the right for the United States are prepared to sell rights for Sates Counties, or for running single machines and to furnish and set up the machines; warrant all to perform perfectly In the great saving of expense of transporting staves over the rough state, the rapidity and perfect manner with which it performs the work, consists the value of this machine

Satisfactory testimonials can be furnished if desired

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and selected with care, and adapted to the wants of the American public, they have no superiors They are emphatically what they are represented to be, *genuine*, and free from *humbugs*, intended as much to *cure* as to *sell* When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health* In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions In the use of the medicines

A word to the *wise* is sufficient, without the publication of certificates which we have of the most flattering description always open for the inspection of the doubtful

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but is *a blood tie, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP—Public approbation has conferred upon it the character of *a great fact*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals

THE GRAFT HERG VEGETABLE *Health Pills*, are a certain and speedy cure for the Fever and Ague. The *Balsam* have a wonderful effect in invigorating a debilitated system

THE GRAEFENBERG GREEN OINTMENT—Is reducing inflammation, healing burns, bruises, and all suffer us to the body, we can confidently recommend this salve to all as being most efficacious In the *Mineral Region* of our Sale its merits are universally appreciated

THE GRAEFENBERG TYP LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it

THE GRAEFENBERG UTERINE CATHOLICON—This is perhaps the most valuable medicine of this Company, when left to be prescribed by the most scientific physicians For Kidney complaints Dizziness, Weakness, and all complaints incident to *Females*, it will be found a safe and speedy remedy Let no *afflicted woman* be deterred by delicacy or modesty from procuring this great remedy In quire of the agent for the pamphlet in relation to it

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c. are all invaluable remedies directions for which and all the above are attached to each bottle

NOTICE.
Boston, July 1, 1851.
JAMES C. MERRILL, JR., ATTORNEY AND COUNSELLOR AT LAW, has this day, admitted into partnership Mr. GUSTAV VON DEUTSCH, recently a member of the legal profession in Germany.
Boston, April 5th, 1852.

THE undersigned hereby respectfully give notice that Mr. VON DEUTSCH has just returned from Germany, where he has been for the last seven months for the express purpose of obtaining correspondents and forming business connections with the principal members of the legal profession throughout that country.

The subscribers, established an extensive correspondence and by family ties with the principles and practices of the law in both countries, furnish us with peculiar facilities for attending to all kinds of law business between the two countries, particularly for the settlement of estates and the prosecution and collection of claims upon parties in either country, and we trust will justify us in the opinion that we shall be able to give satisfaction to all those who may favor us with their business.

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street,)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-PROOF IRON SAFE in competition with the whole world at the great Exhibition in London, for which an important prize was awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, which must find their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Sidwell & Sons, Broadway; Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Freud & Bowman, in Pearl Street.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best lock for the price, ever introduced, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof safes combined.

SALAMANDER SAFES.
WILDER'S PATENT AND RICH'S PATENT COMBINED.
$100,000 SAVED.
FIRE in Pearl Street and Hatchet Street, New York.—Three Stores and their contents destroyed. Deeds before words!

RICH'S SAFES AGAIN!
EIGHT SAFES of different makers consumed, with their contents! THE Safe put up by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER,
THE FIRE IN FULTON AND PEARL-STS., NEW YORK.
New York, Dec. 29, 1851.
MESSRS. STEARNS and MARVIN, successors, to C. Rich & Co., No. 146, Water Street, New York—Sirs, when the fire was consuming my place of business, No. 216, Pearl street, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 54 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my surprise during this delay, and my incredulity when opening the safe in the presence of a number of gentlemen, to find my books, and papers saved, as I feasible as they were previous to its fire. The substance here to which the Safe was subjected, can be conducted from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and no advantage in books. They were compartments in the second floor, into which they fly. All upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. Either position had been reversed, not even the iron would have remained. My loss over the insurance is $4,000, yet the salvation of my books in your safe and down with the representatives of Stitchcock, and, important to contents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its elements, at my present office, No 231 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and the new interested in the preservation of their books from fire, (but particularly those leaving Rich's safe as we) to call at the depot, 146 Water street, New York, to see the interior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1848, in the "Boston Daily Times" and various other newspapers in the United States, by JAMES G. WILSON, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my ability to go on the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 16th volume of the Repertory of Arts, invented by Samuel Benbow, in the year 1791. A like machine was patented in this country by one Kingler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and stands out about the same time. I ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and two per cent on my profits.
JAMES G. WILSON,
Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the Patent Office, in 1846, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be convinced that I mean what I say, I will offer to pledge FIVE THOUSAND DOLLARS against no equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH F. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

REMOVAL.
P. W. BADGLEY,

HAS removed to his New Store, four doors north from his old stand, at Nos. 103 & 105, E. Water-st., where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other establishment in the West, but to convince purchasers that he cannot will sell as low as Jobbers of Groceries in New York,—and why not? The subscriber has been engaged in the Wholesale Grocery business in New York for six years prior to opening in this market. His experience and facilities enable him to buy from the same parties the Jobbers of New York buy from. He will hold himself in readiness to duplicate any retail merchant's purchases in New York—adding necessary expenses.

His stock on hand consists in part as follows:
90 bbls Crushed and Ground Sugars.
110 bbls Clarified Sugars.
50 bbls Crushed and Ground Sugars.
200 bags Rio, Java, Laguayra and Mocha Coffee.
100 half chests Young and Old Hyson, and Imperial Teas.
50 half chests various grades Black Teas.
50 bbls Molasses, 75 bbls ditto.
5 bbls Scotch Ale, imported by sea.
50 bbls Nuts—Brazil, Madeira, Almonds, and Peanuts.
200 boxes and half boxes Sardines.
150 boxes Raisins. 200 boxes Candles.
20 boxes Sperm Candles.
150 boxes Castile, Brown, Pale, Toilet and Shaving Soaps.
75 boxes Smoking and Fine Cut Tobacco.
100 boxes Pipes.
Pepper, Spice, Cassia, Nutmegs, Indigo, Ink, Blacking, &c.

LIQUORS.
30 casks Brandies. 5 pipes Holland Gin.
4 puncheons St. Croix and Jamaica Rum.
50 packages Port, Madeira, Malaga and Sherry Wines.
100 bbls Old Rye and Bulfalo Whiskey.

Pork, Hams, Shoulders, and Lard,
of his own curing.
Also agent for the sale of the celebrated Tiger Mill

POWDER AND LAMP OILS.
It is the object of the subscriber to have at all times a stock that will attract the attention of cash purchasers.

The subscriber would return his thanks for the liberal manner he has been patronized for the last six years, and hopes to merit a continuance of the same by strict attention to the interests and wants of his customers. All orders entrusted to him to fill will meet with the same attention as if present. For cash purchases in quantities of his old customers, who are numerous, and easy to be found.

WATER-CURE ESTABLISHMENT,
BRATTLEBORO, VERMONT.
THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has recovered from his severe sickness, and is ready again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for board and bath rooms. It will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel at a fashionable watering place. Brattleboro, a pleasant and quiet summer residence, the house has many attractions besides its Water-cure, for Nature has indeed been lavish of her gifts on the town, and the valley of the Connecticut in the vicinity.

The Life of the Flesh is the Blood.
WHEN that becomes impure, disease inevitably attacks the system. As a Purifier of the Blood, the Sarsaparilla of BEN. BRANDRETH does most efficient. Its preparation is different from all others, the usual deleterious matter being entirely excluded from it. It is not a pleasant drink, but a concentrated, and most highly concentrated, a small teaspoon full being a dose. It is also purely vegetable, and as an alterative medicine it may be relied on as being the best in market.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I thereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by actual inspection of the excellent qualities of the same. ENNO MEYER,
Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly adapted to the purpose intended. Their practical and scientious construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The cracks and chasms which not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering the safest position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in the very durable; and joining to the above another virtue, viz. that of dispensing with repairs. The under-signed therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.
OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

GIVE IT A TRIAL.
SHELDON'S WATERPROOF
LEATHER POLISH!
Do you know that of all the articles manufactured in

SHELDON'S OIL WATER PROOF POLISH
is attracting the most universal admiration where it has been tested? We can produce testimony of the highest reputation; and are confident of yours, if you will but give it a fair trial.

It surpasses everything ever before offered to the World.

It gives a brilliant polish, and is not washed off by Castile soap and water. It is easily applied, and will last as long as your Leather. Ladies commend it very highly for their own, and

MISSES SHOES AND RUBBERS.
Adding to a brilliant lustre the virtue of not soiling the whitest linen. For Gentlemen's
